COMMUNICATION
NAVIGATION

Since its inception in 2000 SIGNAL S.A. has become the leading Marine Electronic Service Company in Argentina and neighboring countries, adding later it’s Sales Department of Electronic Equipment of new Represented International Companies.

We provide Sales, Installation, Commissioning and Setting into Operation of the equipment sold from our Represented Companies with relevant Guarantee compromise, as well as repair of Electronic Equipment fitted on board of existing vessels, no matter who the Manufacturer is.

SIGNAL S.A. has a permanent duty guard that receives orders 24/7 and assists Clients in any National and International Port.

Its Service personnel has been trained abroad and speaks English, so easily communicates on board. These features as well as Original Spare Parts of its own, makes SIGNAL S.A. the right choice of Ship Owners.
